No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (21 Congress Street, Salem, Massachusetts 01970), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1982 articles are the same as those shown for current articles.

CONTENTS OF VOLUME 22

Number 1, August 1982

David King and Jonathan Roughgarden. Graded Allocation between Vegetative and Reproductive Growth for Annual Plants in Growing Seasons of Random Length 1

John Vandermeer. On the Resolution of Chaos in Population Models 17

Steven B. Teleky. Multiple Interactions: An Empirically Suggested Model 28

Marcy K. Uyenoyama and Bengt O. Bengtsson. Towards a Genetic Theory for the Evolution of the Sex Ratio. III. Parental and Sibling Control of Brood Investment Ratio under Partial Sib-Mating 43

Samuel Karlin and Uri Liberman. The Reduction Property for Central Polymorphisms in Nonepistatic Systems 69

G. B. Golding and C. Strobeck. The Distribution of Nucleotide Site Differences between Two Finite Sequences 96

Sabin Lessard and Samuel Karlin. A Criterion for Stability-Instability at Fixation States Involving an Eigenvalue One with Applications in Population Genetics 108

Stephen W. Pacala and Jonathan Roughgarden. The Evolution of Resource Partitioning in a Multidimensional Resource Space 127

Number 2, October 1982

S. P. Blythe, R. M. Nisbet, and W. S. C. Gurney. Instability and Complex Dynamic Behaviour in Population Models with Long Time Delays 147

Joan M. Geramita, Fred Cooke, and Robert F. Rockwell. Assortative Mating and Gene Flow in the Lesser Snow Goose: A Modelling Approach 177

Ilan Eshel. Evolutionarily Stable Strategies and Viability Selection in Mendelian Populations 204

Jerry W. Lewis and Edward Pollak. Genetic Identity in Subdivided Populations. I. Two Equal-Sized Subpopulations . . 218

Samuel Karlin. Some Assortative Mating Models Based on Phenotype Classes Determined by a Dominance Ordering of Multiple Alleles 241

NAOYUKI TAKAHATA. Sexual Recombination under the Joint Effects of Mutation, Selection, and Random Sampling Drift 258
KENT E. HOLSINGER AND MARCUS W. FELDMAN. The Evolution of Recombination in Permanent Translocation Heterozygotes . . 278

NUMBER 3, DECEMBER 1982

NORMAN A. SLADE AND HOWARD LEVENSON. Estimating Population Growth Rates from Stochastic Leslie Matrices . . 299
RUTH A. BERNSTEIN. Foraging-Area Size and Food Density: Some Predictive Models 309
A. GIMELFARB. Quantitative Character Dynamics: Gametic Model 324
J. S. BREW. Niche Shift and the Minimisation of Competition . . 367
J. SONG. Some Developments in Mathematical Demography and Their Application to the People's Republic of China 382
PETER D. TAYLOR AND GEORGE C. WILLIAMS. The Lek Paradox Is Not Resolved 392
ALLAN STEWART-OATEN. Minimax Strategies for a Predator–Prey Game 410
